Dear Dr. Green:

This is an historic moment, and one of opportunity for us all. As I begin my second term, the outlook for our nation has never been brighter.

For the first time in decades, Americans have a tremendous opportunity to make real progress in the years ahead.

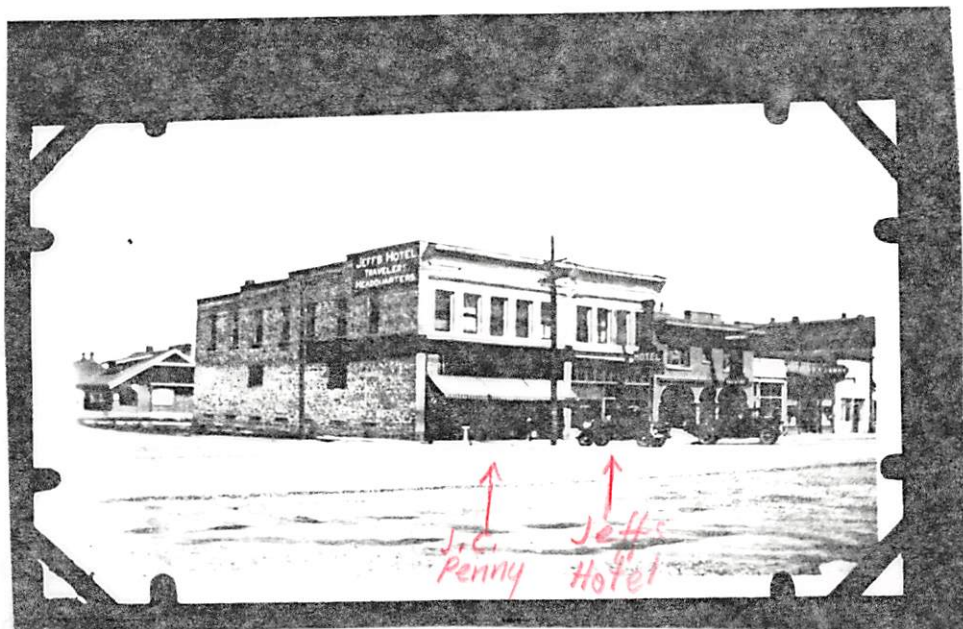

However, it is not by luck or chance that we have come this far.

I have been fortunate to have the support of the Republican Presidential Task Force, which I founded for the primary objective of maintaining a Republican Senate Majority.

Today, I feel proud to invite you and a few patriotic Americans like you to accept Charter Membership.

Without the Task Force working to keep the Senate in Republican hands for the next four years, we won't be able to achieve the goals we set in 1980.

We have made great progress in reducing the size of government, yet more can be done in the years ahead. We've lowered interest rates, inflation, taxes and unemployment -- and with your help we will lower them even further.
